Foreword

36th AMS CONFERENCE ON HURRICANES AND TROPICAL METEOROLOGY 06-10 May 2024

On behalf of the American Meteorological Society (AMS), the AMS Committee on Tropical Meteorology and Tropical Cyclones, and the Conference Program Committee, welcome to Long Beach and the 36th AMS Conference on Hurricanes and Tropical Meteorology.

This conference continues a period of extraordinary interest in tropical cyclones and tropical meteorology. More than 650 abstracts were submitted in response to the call for papers and over 160 of those submissions were made by the future leaders in our field: our students. Despite the large number of submissions to this conference, the program committee met the challenge of organizing sessions that appropriately represent the diversity of topics and attendees. This was an enormous task, but the committee worked diligently in a collegial manner. We thank all session organizers, session chairs, chairs of the Student Award Committee, and the other members of the AMS Committee on Tropical Meteorology and Tropical Cyclones for their efforts toward this conference. This one-week conference is the culmination of many months of work by these people.

We would like to extend our gratitude to Cathryn Iannarilli and Lisa Harris of the AMS Meetings Department for her unending assistance in planning and conducting this conference. Please convey your thanks to all of the AMS staff as you interact with them throughout the week. Several student volunteers are attending and will also assist with a variety of support positions. In particular, we welcome first-time attendees and look forward to receiving feedback on your experience at this year's conference. Please do not hesitate to contact us or any member of the committee with your suggestions.

In addition to the typical science sessions, this year's conference includes events to facilitate networking and career development of attendees, especially for students and early career professionals. Those include "Panel Discussion on Career Developments in Tropical Meteorology," "Student and Postdoc Mixer," and "Networking Coffee Break for Students/Postdocs/Early Career Professionals." We thank the AMS Student Specialty Meeting Events Committee for organizing those events.

Throughout the week, please take advantage of the venue and the best of Long Beach to make your stay even more memorable.
