

## **2002 Award Recipients**

### **Rosby**

**V. Ramanathan** “for fundamental insights into the radiative roles of clouds, aerosols, and key gases in the earth’s climate system.”

### **Charney**

**Roland A. Madden** “for pioneering investigations of global-scale waves and of the intraseasonal oscillation.”

### **Suomi**

**Lee-Lueng Fu** “for simultaneously maintaining the science focus of the TOPEX/POSEIDON mission and producing datasets of great importance across the earth sciences.”

### **Sverdrup Gold Medal**

**Michael L. Banner** “for advancing the understanding of wave dynamics, especially wave breaking and the role of waves in air–sea interaction.”

### **Stommel Research Award**

**Nelson G. Hogg** “for elucidating the structure and dynamics of the ocean circulation through observation, analysis, and theory.”

### **Brooks**

**Eugene M. Rasmusson** “for valuable service on a variety of the Society’s committees, and for enthusiastic and effective leadership as councilor and president.”

### **Abbe**

**Kenneth C. Crawford** “for nearly 40 years of visionary service as forecaster, researcher, teacher, and mentor dedicated to building bridges between operational and research meteorology.”

### **Anderson**

**John T. Snow** “for outstanding efforts in fostering programs and institutional relationships that enhance diversity within the atmospheric and related sciences.”

### **Meisinger**

**Bjorn B. Stevens** “for pioneering advances in understanding and modeling of cloud-topped boundary layers.”

### **Houghton**

**Brian J. Soden** “for creative and thoughtful use of observations from multiple satellite sensors to better characterize the climate system’s radiative and hydrological balances.”

**Award for Outstanding Contribution to the Advance of Applied Meteorology**

**Alfred K. Blackadar** “for lifelong contributions as a scientist and educator to our understanding of winds in the lower atmosphere and their effect on natural and man-made environments.”

**Mitchell**

**Eugene M. Weber** “for five decades of faithful and dedicated service to both the military and civilian weather communities.”

**Reichelderfer**

**William H. Little** “for leadership in integrating meteorological and oceanographic information into joint military operations and for imaginative applications of new technologies within this community.”

**Award for an Exceptional Specific Prediction**

**Michael P. Foster** “for his forecast and warning of the 28 March 2000, Fort Worth, Texas, tornado which resulted in saving many lives.”

**Award for Outstanding Service by a Broadcast Meteorologist**

**Vince Condella** “for many years of outstanding service and dedication to the viewers in southeastern Wisconsin.”

**Award for Outstanding Achievement in Biometeorology**

**Timothy R. Oke** “for extensive contributions to the theory, teaching, and applications of knowledge about the interaction between the atmosphere and biological systems.”

**Award for Outstanding Services to Meteorology by a Corporation**

**Blue Hill Observatory**, Milton, MA, “for its distinguished history of meteorological research and commitment to maintaining a high-quality climate record, and its dedication to increasing public understanding of atmospheric science.”

**Walter Orr Roberts Lecturer in Interdisciplinary Sciences**

**Michael J. McPhaden** “for advancing understanding of the ocean’s role in climate and for leadership in fostering collaborations among atmospheric and oceanic scientists.”

**Battan**

**Erik Larson**, “for *Isaac’s Storm*, a well-researched and engaging account of the 1900 Galveston hurricane.”

**Special Award**

**Todd S. Glickman**, managing editor, and the **Editorial Board, Glossary of Meteorology (Second Edition)**, “for marshaling the energies and talents of hundreds of contributors to produce a reference work of immeasurable benefit to the community.”

## EDITORIAL BOARD

## **Editor's Award**

### *Journal of Atmospheric Science*

**Christopher S. Bretherton** “for insightful reviews of papers on planetary boundary layers and clouds.”

***Journal of Applied Meteorology***

**Chris J. Walcek** “for thoughtful, thorough, and fair reviews that improve the quality of submitted papers.”

***Journal of Physical Oceanography***

**William K. Dewar** “for thoughtful and constructive reviews that reflect commitment both to scientific progress and to the scientific community.”

***Monthly Weather Review***

**Thomas M. Hamill** “for thorough, timely, and constructive reviews over a breadth of topics, and for valuable arbitration of conflicting reviews.”

***Journal of Atmospheric and Oceanic Technology***

**Norman Donaldson** “for an extremely thorough and insightful review that greatly improved the quality of the paper.”

***Weather and Forecasting***

**Christopher W. Landsea** “for outstanding service through original reviews and thoughtful opinions on controversial manuscripts.”

***Journal of Climate***

**Adrian J. Matthews** “for several timely, comprehensive, and helpful reviews.”

***Journal of Hydrometeorology***

**Matthias Steiner** “for insightful and constructive reviews and for his dedication to the overall quality of the review process.”

**The Teaching Excellence Award**

**Lance F. Bosart** “for enthusiastic and skilled undergraduate and graduate teaching and mentoring of a generation of atmospheric science students.”

**Macelwane Annual Awards in Meteorology**

**Jefferson Wood**, The Florida State University, “for his paper, ‘Relationship of Ice Content to Hurricane Intensity Examined Using TRMM/TMI Data Sets.’”

**Orville Scholarship in Meteorology**

**Jason C. Furtado**, Lyndon State College

**Howard H. Hanks, Jr., Scholarship in Meteorology**

**Richard A. Birt**, Texas A&M University

**Dr. Pedro Grau Undergraduate Scholarship**

**Karen A. Trammell**, University of Oklahoma

**Matthew P. Van Horne**, Massachusetts Institute of Technology

**Guillermo Salazar Rodriguez Undergraduate Scholarship**  
**Richard C. Brody**, The University of California—Berkeley  
**Melissa S. Bukovsky**, Northern Illinois University

**AMS 75th Anniversary Scholarship**  
**Kurt M. Buffalo**, The University of Northern Colorado

**Schroeder Scholarship**  
**Philip E. Shafer**, The Ohio State University

**Richard and Helen Hagemeyer Scholarship**  
**Daniel T. Dawson**, Purdue University

**Ethan and Allan Murphy Scholarship**  
**Brandon K. Fornwalt**, The University of South Carolina

**John R. Hope Scholarship in Atmospheric Sciences**  
**Valerie L. Meyers**, Arizona State University

**Werner A. Baum Undergraduate Scholarship**  
**Richard M. Yablonsky**, North Carolina State University
