ACHIEVEMENTS RECOGNIZED BY RESPECTED INTERNATIONAL PUBLICATION

TALLAHASSEE, Fla. Aug. 7, 2004 — The North Florida Chapter of the American Meteorological Society was recognized today by the internationally respected publication *BAMS*. The recognition focuses on the achievements of the North Florida Chapter during the 2003-2004 year. Highlights of the chapters' activities include the development of a K-12 pre-college chapter, presentations in schools throughout Tallahassee, and the chapter's involvement in the ECHO food drive.

The article arose out of an early winter mailing to local chapter officers from the AMS' Local Chapter Affairs Committee and is authored by one of the members of that committee, Sherri DelSoldato. Excerpts from the article can be obtained by contacting the National AMS' Local Chapter Affairs Committee directly by accessing

BAMS RECOGNITION/ 2

their website at <http://www.ametsoc.org/ams>. *BAMS* is the official Bulletin of the AMS. For more information about this or any of the chapter's other functions, please contact President Christopher Bennett at president@northflams.org.

The North Florida Chapter of the AMS is an autonomous chapter of the national AMS tasked with the duty to promote meteorology and the atmospheric sciences through community and professional outreach within the North Florida, Southwest Georgia and Southeast Alabama regions. The North Florida Chapter, now in its' fourth year of existence, always welcomes interested individuals in these communities to become involved.
