

Climate Change Forum

MARYLHURST UNIVERSITY

Clark Commons

Free and open to the public

Parking is free

Saturday, October 20, 2007

Noon - 5 PM

- Climate change is happening, the earth is warming. Learn how the Pacific Northwest will be affected and understand why the climate is changing and how much change can be expected. Explore sustainable ways to deal with the changes.
- This half-day forum features prominent Pacific Northwest scientists and policy advisors sharing their experience in understanding and dealing with a warming earth.
- This forum is intended for those interested in learning about climate change from those doing the research.
- Marylhurst students can arrange academic credit by contacting Jan Dabrowski

For more information or to RSVP, contact:

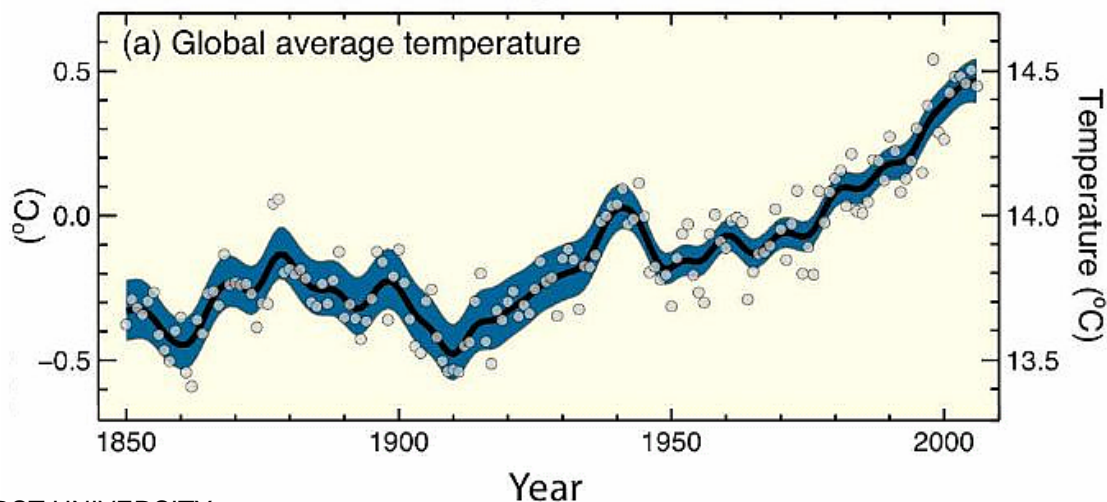

Jan Dabrowski, Ph.D.
