

**The Larry R. Johnson Scholarship** honors the late Larry Johnson whose contributions to meteorology spanned over 30 years and careers with the U.S. Air Force and PRC (now known as Northrop Grumman Information Technology [IT]). Larry served 10 years with PRC in a variety of assignments on the Advanced Weather Interactive Processing System (AWIPS) program, the integrating element of the \$4.5B National Weather Service Modernization. Known as Mr. AWIPS, Larry's tenure on AWIPS was longer than any other person, and his contributions to the success of AWIPS stand out among all others. The scholarship carries a \$2000 stipend.
