

The Ken Reeves AccuWeather Memorial Scholarship honors the late Kenneth W. Reeves and his many contributions as an advocate, mentor and supporter of undergraduate students and their future careers in Atmospheric Sciences. Ken's passion for the weather led him to a successful 29-year career at AccuWeather where as the Vice President of Forecast Operations, Ken would actively recruit, teach and guide recently graduated Meteorology and Atmospheric Science students as they began their careers. The scholarship will assist outstanding students pursuing undergraduate degrees in the atmospheric sciences looking to apply their skills to operational meteorology, as Ken did throughout his rich and successful career. The scholarship is awarded annually in the amount of \$2,000.
