CONFERENCE	AWARD	AWARDEE	SCHOOL	PRESENTATION TITLE
20Fluid	Student Travel Award	Amanda Back	University of California	The effect of overturning meridional background circulation on long equatorial Kelvin and Rossby waves
20Fluid	Student Travel Award	Clare SY Huang	University of Chicago	Local Finite-amplitude Rossby Wave Activity as a Diagnostic of Anomalous Weather Regimes
20Fluid	Best oral Presentation	Ray Akitsugu Yamada	New York University	Momentum balance and Eliassen-Palm flux in moist isentropic coordinates
20Fluid	Best oral Presentation	Jorn Callies	MIT	Wave–vortex decomposition of one-dimensional ship and aircraft observations
20Fluid	Best oral Presentation	Talia Tamarin	Weizmann Institute of Science, Rehovot	The poleward motion of extratropical cyclones from a PV tendency analysis
20Fluid	Best Poster Presentation	Xiaozhou Ruan	California Institute of Technology	Boundary control of potential vorticity injection with oscillating flows
20Fluid	Best Poster Presentation	Angela Cheska Siongco	Max Planck Institute for Meteorology	The Longitudinal Position of the Atlantic ITCZ
20Fluid	Best Poster Presentation	Aaron L. Match	Cornell University	Diagnosing the Structure of Stratosphere-Troposphere Coupling Using Finite Amplitude Wave Activity
20Fluid	Best Poster Presentation	Nadir Jeevanjee	University of California	On the buoyant acceleration of fluid parcels
