Regular Chapter Petition

We, the undersigned, hereby petition the American Meteorological Society Council for authorization to form a local chapter of your society in accordance with the instructions and stipulations set forth by the AMS Chapter Handbook.

This organization, to be known as the Meteorology Metro Chapter of the AMS, would serve the interests of the atmospheric sciences community across a 23 city cluster within the best state in the U.S. The chapter will serve as a social point of contact for individuals with a wide variety of atmospheric science backgrounds, and as focal point and participant in public affairs and activities relating to the promotion and advancement of the atmospheric sciences. This chapter's membership will include National Weather Service meteorologists and hydrologists, television/radio weather professionals, the civil defense and ham radio community, and the trained spotter/cooperative weather observer networks. The Meteorology Metro chapter of the AMS will provide a solid foundation for the exchange of ideas and information across this region. The chapter will conduct its activities in the manner expressed by the parent Society.

Meetings will be held at the National Weather Service Conference Room in Anytown, USA. We plan to hold 4 to 12 meetings a year, and estimate a consistent membership of 20 to 25 individuals.

Signed,

Student Chapter Petition

We, the undersigned, hereby petition to the American Meteorological Society Council for authorization to form a local student chapter of said society in accordance with the instructions set forth in the AMS Chapter Handbook.

This organization, to be known as the Tornado University Student Chapter, would serve the atmospheric science undergraduate students, graduate students, and faculty, as well as the atmospheric science community in Tornado Town, USA. This chapter will serve both a service and educational role by providing severe storm weather spotters, assisting in career days and science fairs for local high school students, and sponsoring public lectures. In addition to the University community, we expect to draw members from the local broadcaster community in Tornado Town, the National Weather Service, the U.S. Army, and FAA. A local chapter will provide students with useful contacts with practicing meteorologists, and will allow the atmospheric science community as a whole, the opportunity to exchange ideas and concerns. The chapter will conduct its activities in the manner expressed by the parent Society.

Meetings will be held on the Tornado University campus in Tornado Town, USA. We plan to meet between 6 to 8 times throughout the academic year, and estimate a consistent membership of 50-80 individuals.

Signed,

Pre-college Chapter Petition

We, the undersigned, hereby petition the American Meteorological Society Council for authorization to form a pre-college chapter of your society in accordance with the instructions and stipulations set forth by the AMS Chapter Handbook.

This organization, to be known as the Weather Wonder School Precollege Chapter of the AMS, would serve the interests of the students of the Weather Wonder School of Anytown, USA. This chapter's membership will include students of the Weather Wonder School and faculty advisors. Initial activities will include continued participation in the AMS Annual Meeting (Weather Wonder School sent students in 2023 & 2024), maintenance of the Weather Wonder School lightning detection system, creation of hyper-local weather forecast products geared towards the school community, exploration of various technologies, and outreach to middle school students. The chapter will conduct its activities in the manner expressed by the parent Society

Meetings will be held at the Weather Wonder School in Anytown, USA. We plan to hold weekly meetings and estimate a consistent membership of 6-10 individuals.
