

2019 AMS Washington Forum

Connecting Science and Technology with
Business Policy

27-29 March 2019
AAAS Building
Washington, DC

Sponsorship Brochure

2019 Themed Sessions Include:

- Agribusiness and Smart Farming Using Weather Analytics
- Augmented Weather Applications from Artificial Intelligence
- Congressional Staffers
- Federal Agency Leadership
- Hurricane Resiliency from Storms of the Future
- Meet the NOAA Leadership Staff
- Value of Weather Information and Services
- Weather Decision Support for Mariners

Mark your calendars now for the 2019 AMS Washington Forum. This much-anticipated event provides an important platform to examine public policy issues across the weather, water and climate sciences.

Keynote Speaker

Dr. Susan K. Avery, AMS Past President; President Emerita, Woods Hole Oceanographic Institution; and Professor Emeritus, University of Colorado Boulder.
