

# Coastal Flooding

## *Science, Risk Communication, and Response*

**Date:** March 11, 2015

**Time:** 4:00 – 5:30pm

**Location:** Capitol Visitor's Center,  
Room SVC 215

**RSVP:** [yseidgreen@ametsoc.org](mailto:yseidgreen@ametsoc.org)

### **Speakers:**

- Molly Mitchell  
Virginia Institute of Marine Science
- Jamie Rhome  
National Hurricane Center
- Kristin Baja  
Baltimore Office of Sustainability

### **Topic:**

Flooding threatens lives and property all along U.S. coasts. This briefing will explore:

- types of flooding threatening coastal communities;
- risk communication strategies
- mitigation options to lessen damages from recurrent flooding and hurricanes

Presented by the American Meteorological Society, the Association of State Floodplain Managers, the Coastal States Organization, and the Consortium for Ocean Leadership

*Part of the AMS Capitol Hill Briefing Series*
