and any prior versions thereof, is hereby irrevocably assigned and transferred without reservation and in its entirety to the American Meteorological Society (AMS), its successors and assigns. As a condition of this transfer, in accordance with the Federal Acquisition Rules governing the contract between National Renewable Energy Laboratory (NREL) and the U.S. Government, AMS grants to the Government, and others acting on its behalf, a paid-up, nonexclusive, irrevocable worldwide license in such copyrighted data to reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, by or on behalf of the Government. This transfer is effective on the date the work is accepted for publication by the AMS. The author(s) reserves: (1) all propriety rights other than copyright, such as patent rights; and (2) the right to use all or part of the work in future lectures, press releases and reviews of their own. Certain additional reproduction rights are granted by Sections 107 and 108 of the U.S. Copyright Law. All other uses will be subject to the limitations given in the copyright statement of the AMS journal in which the work is published. The author(s) of this work agree to promptly notify the chief editor if this work is submitted for publication, in any medium, elsewhere before its disposition by the American Meteorological Society.

To be signed by all authors, or if the work is a work made for hire, by the employer, who is the legal author under the U.S. Copyright Laws.

Signatures must be digital or hand-written. Fill in other fields and sign.
