

**The Dr. Pedro Grau Undergraduate Scholarship** honors the late Dr. Pedro Grau y Triana. Medical doctor, legislator, original inventor, and businessman, Dr. Grau was a hardworking, globe-trotting researcher of human nature and historic events. Among his many interests were tropical hurricanes. Having gone through several very severe ones, he thought that every effort should be made to understand their nature and improve the forecasting. The scholarship is given by his daughter, Mrs. Manon Rodriguez. Mrs. Rodriguez has funded a **\$2500 scholarship** in the interest of seeing more effort and resources devoted to atmospheric research.
